

## EcoZoom Versa Cook Stove

### FEATURES

Components of the Philips High Efficiency Cook Stove include:

- : 1 x refractory metal combustion chamber
- : 1 x 6 pronged cast iron stove top
- : 1 x plastic and steel handle
- : 1 x adjustable galvanised steel pot skirting.
- : 2 x internal grates.
- : 2 x hinged doors.

Dimensions: 28 cm height x 30 cm width x 30 cm depth.

Weight: 9kg.

### ADVANTAGES

- Stove can be used to burn wood, charcoal or biomass.
- The hinged combustion chamber doors enable an effortless transition from wood to charcoal fuels.
- All types of cooking pots can be used including fry pans, round bottom pots and woks.
- The 6 pronged cast iron stove top improves heat transfer for all pots used on the stove.
- Safe, portable, easy to use and easy to clean.
- Adjustable doors easily enable the user to control the air flow into the stove.
- Uses thicker reformulated cast iron to keep the user and the cooking surfaces safe.
- The adjustable skirt increases heat transfer efficiency to the pot on the stove.
- Tested and endorsed by the U.S Environmental Agency and the Aprovecho Research Centre.
- EcoZoom is an Implementer Partner of the Global Alliance for Clean Cookstoves.

### BENEFITS

- Compared to an open fire the stove:
  - Uses at least 50% less wood or charcoal
  - Cooks 2 – 4 times faster.
  - Produces 70% less smoke and 50% less greenhouse gases.
- 3 small pieces of wood are enough to prepare either 1 kg of rice, 1.5 kg of pap or 5 litres of water in just 20 minutes.
- The stove can also be used as a heater.
- If used inside the stove will generate far less smoke than an open fire once properly going.
- The stove comes with a 6 month replacement guarantee.

### FINANCIAL SAVINGS

Appliance Type	Appliance Retail Cost	Units/Month	Cost/Unit (R)	Cost/Month	Cost over 3 years
Paraffin stove	R150	15	R12	R180	R6 630
