Bringing reliable, clean & safe energy solutions directly to YOU

Rocket Works Stove

FEATURES

- Stainless steel, highly efficient combustion chamber.
- Stainless steel outer cage.
- 5 pronged cast iron grill top.
- Weight: 3 kg.
- Height 27 cm.

ADVANTAGES

- No technical expertise required for installation and use.
- Stick size pieces of wood can be used thereby reducing the need to chop down healthy trees.
- Significantly reduced quantity of wood required thereby freeing up fuel collection time and empowering women.
- A combustion efficiency rate of 96.7% resulting in harmful gasses being burned before they are released.
- Can accommodate multiple fuels when required (wood, biomass, etc.)
- The outer cage remains cool to touch even after hours of cooking due to its innovative design.
- Manufactured using high quality stainless steel allowing for many years of regular use.
- Has a thermal efficiency rate of 45% for the 'Large Pot High Power' category, performed by SeTAR Thermal Efficiency Test.

BENEFITS

- Safe and easy to use.
- Can boil 5 litres of water in 15 minutes using as little as 250 grams of wood.
- No electricity connection is required for it to be used effectively.
- Once purchased there are no on-going operational or maintenance costs.
- Product can be used immediately and does not require professional installation.
- Stove is easy and quick to clean.

FINANCIAL SAVINGS
