

Wonderbag

FEATURES

Manufactured by Natural Balance in South Africa.
 Components of the Philips High Efficiency Cook Stove include:
 : 2 x poly-cotton bags
 : Expanded polystyrene (EPS) balls.
 Available in three different sizes: small (12 litres), medium (30 litres) and large (50 litres).

ADVANTAGES

- The Wonderbag is a non-electric, heat-retention cooker.
- It allows food that has been brought to a boil on a stove or fire to continue cooking for hours after it has been removed from the fuel source.
- Significantly improved cooking times:

Wonderbag cook times

Time on stove Time in Wonderbag

Meat	20 mins	5 hours
Chicken	15 mins	3 hours
Vegetables	5 mins	1 hour
Rice	2 mins	1 hour

BENEFITS

- Up to 30% reduced fuel usage per family.
- Reduced carbon dioxide (CO₂) emissions.
- Reduced toxic fumes resulting in less respiratory problems and diseases particularly for women and children.
- Reduced use of stoves and fires and accidents related to their use.
- Reduced time spent cooking particularly for women.
- Reduced water consumption.
- No burning occurs and food is saved.
- Food cooked in the Wonderbag retains its flavour and spices and doesn't dry out.
- Comes with a 3 year guarantee.
